# E3 KEY POINTS OF A TEXT

Worksheet

Read the text, then answer the questions

## The AI Debate

Artificial Intelligence (AI) is a big part of modern technology. It affects many areas of our lives, like healthcare and employment. As AI gets better, people have different opinions about it.

### The Good Side of AI

AI can make our lives better in many ways. In healthcare, AI can help doctors find the best treatments for patients.

AI can also help solve big problems like climate change. It can help us use energy more efficiently and predict environmental changes.

### The Concerns About AI

Even though AI has many benefits, it also has some concerns. One big concern is jobs. People worry that AI will take over jobs, leading to unemployment and inequality.

The AI debate shows the challenges and opportunities of new technology. By addressing concerns and ensuring fair access to AI's benefits, we can use AI to create a better future for everyone.

Q1) What is AI?

a) A type of food
b) A part of modern technology
c) A new sport

Q2) How can AI help in healthcare?

a) By making food
b) By helping doctors find the best treatments for patients
c) By building houses

Q3) How can AI help with energy useage?

Q4) ‘We can use AI to create a better future for everyone’. Is this a fact or opinion?

Q5) What big problem can AI help solve?

a) Climate change
b) Traffic jams
c) Homework

Q6) What is one concern people have about AI?

a) It will make people taller
b) It will take over jobs
c) It will make food taste bad

Q7) What does the AI debate show?

_____

Q8) What can we do to use AI for a better future?

_____

# ANSWERS

Q1) What is AI?

a) A type of food
b) A part of modern technology ✓
c) A new sport

Q2) How can AI help in healthcare?

a) By making food
b) By helping doctors find the best treatments for patients ✓
c) By building houses

Q3) How can AI help with energy useage?

Make it more efficient

Q4) 'We can use AI to create a better future for everyone'. Is this a fact or opinion?

Opinion

Q5) What big problem can AI help solve?

a) Climate change ✓
b) Traffic jams
c) Homework

Q6) What is one concern people have about AI?

a) It will make people taller
b) It will take over jobs ✓
c) It will make food taste bad

Q7) What does the AI debate show?

The good side and the concerns of AI

Q8) What can we do to use AI for a better future?

Address the concerns and ensure fair access to AI's benefits
